Your Point of View

Extreme sports are tearing the envelope like never before, and these on-board POV-cam systems will be there for you every step and slide of the way. They're shock-resistant, water-and dust-proof, built to handle your lifestyle and capture all of it on lightweight, ultra reliable tapeless media with crystal-clear imagery.

POV cameras are easily attachable to where you need them, feature lengthy SD-card storage times in a variety of formats, and download quickly to NLE systems. No matter how you grip it and rip it, your POV is captured for keeps.

Filmmakers are also pushing the edges of the frame, and POV cams are making music videos, documentaries, and indie films more visceral and exciting than ever. Extended techniques and hybrid styles are now part of a shooter's vibe. POV cams can capture the unique footage you want, for projects that crackle and pop with energy. These unique cameras are also ideal for undercover applications. They're small enough for situations impractical or inaccessible to conventional cams. Wherever your ride takes you, POV cams are the new generation of image capture.

VholdR ContourHD 1080p Wearable Camcorder

Capture and share your most exhilarating extreme experiences with the rugged, weatherproof ContourHD camcorder. An all-in-one contained unit that mounts to virtually anything, use it to capture all the action when you're riding, skating, wind surfing and then some.The 135° rotating lens gives you a wide angle view and at the same time is fixed focus, allowing you to forget about the camera and keep your eyes on the trail, slope, or road.

- Record up to 8 hours on a 16GB MicroSD card (2GB card included)
- Recording video is easy thanks to the over-sized record switch—even with gloved hands
- No need to fuss with focus: the camera's dual lasers, activated on demand, indicate where it's pointed and if its level. Lens and capture card rotate in unison within a pivoting, hermetically sealed capsule—so no matter how upside-down your world, the ContourHD makes it level.

ContourHD 1080p Wearable Camcorder: *(B&H# VHCHDWC)* ..... **Call or Log-on**

ContourHD Wearable Camcorder: Records 1280 x 720 *(B&H# VHCHDC)* **279.95**

ELMO SUV-CAM II Micro Video Camera System

A tough, portable video recording system that can be used for sports, security and industrial applications, the SUV-Cam II is small enough to be mounted in places inaccessible to conventional cameras. Records 21/2 hours of DVD-quality on a 4GB SD/SDHC card and can be viewed on the recorder's 2.2" LCD screen or output to a monitor.

- Records in MPEG-4 format video to a SD/SDHC card. Images can be played back right on the recorder's 2.2" color LCD screen, on a PC, or a large TV/monitor via its A/V ports. The use of SD cards as a storage medium is ideal for this recorder given a flash memory drive's virtual immunity to shock and vibration.
- When the action starts there is no time to fiddle around with menus and settings to get the system to start recording. Simply needs to press the Start/Stop button once and the unit instantly goes into recording mode even if its been turned off. There is also a 'hold' feature to prevent the 'stop' button from being accidentally pressed during intense or extreme movements.
- Although the camera is ultra compact, it is built of a tough metal waterproof material able to submerge down to 132'. Pleasure divers and career marine biologists alike will love recording the wondrous sights and sounds under the sea. (The recorder cannot be immersed in water.)
- The focusing ring is designed that it shouldn't become de-focused under most operating conditions. Additionally, this system enlists the aid of a sophisticated white balance function to ensure that your skies don't turn out green and your snow doesn't acquire a yellowish tinge.

SUV-CAM II with 2.6' Cable *(B&H# ELSC23C)* **747.95**

SUV-CAM II with 5' Cable *(B&H# ELSC25C)* **764.95**

GoPro HD Helmet HERO Camcorder

World's Smallest, Wireless On-Board Video Camera

GoPro HD Helmet HERO gives you everything you need to capture HD footage from your helmet, vehicle, or other equipment. With 3 helmet mounts, 2 gear or vehicle mounts and even a head strap for wearing the camcorder like a headlamp you can record all your adventures in high res while your hands remain free to perform the task at hand. You can even take it up to 108-ft. underwater thanks to the waterproof housing.

Capture 1080, 960, or 720p video as well as 5MP digital stills. The camera can shoot photos automatically every 2, 5, 10, 30, or 60 seconds until the battery dies or the SD card fills. You can also set it to take a single shot, triple shot, or use the self-timer to get yourself in the photo. In addition to all that, the HD Helmet HERO is compatible with all of GoPro HERO's optional mounting accessories, meaning the possibilities for shooting are endless.

GoPro HD Helmet HERO Camcorder *(B&H# GOHHH)* **299.95**

GoPro HD Motorsports HERO Camcorder: Same as above, except it mounts to motorcycle, ATV, car, plane, jet ski, boat, or snowmobile using specialized Motorsports package. *(B&H# GOHMH)* **299.95**

V.I.O. POV.1.5

Point-of-View Video Systems for Extreme Action Sports

The innovative POV.1.5 captures the most thrilling point of view—yours. This hands-free video sports system is built to withstand the dust, shock and water that make action sports fun. The camera head mounts to your gear, helmet, or handle bars, while the all-digital, flash memory recorder can be mounted nearby or stowed easily in your pack.

The remote controlled recorder has a straight record mode and an edit-on-the-go space saving mode. Recording in DVD-quality MPEG4 video, the POV.1.5's wide aspect ratio mode allows you to merge footage into an HD workflow. The POV.1.5 package—with a tethered camera head, built-in video recorder, 4GB SD card (8GB limit), wireless remote and software for managing your point-of-view videos allows you to shoot, tag, edit, and share your footage right out of the box.

- High-quality wearable video camera records with 720 x 480 resolution at 30fps
- Ergonomic user interface design enables single-handed operation and hands-free video capture
- Shock-resistant, water-resistant and dustproof for use in the most hazardous environment

AIPTEK™ www.aiptek.com

Hi-Speed HD 720p HD Camcorder

Incredibly inexpensive, the Hi-Speed HD camcorder captures up to an hour of 720p (1280 x 720) AVCHD video at 30 fps to its internal 2GB memory or up to 16 hours on a removable 32GB SDHC card. This makes it ideal for emailing or uploading to the web. In addition, it can also be used as a 3MP digital camera with a flash and red-eye reduction mode for shooting and storing thousands of digital images. Other features include 2x digital zoom, 2.4" 270° swivel LCD screen, Night Shot mode for recording in low light, and an component output for watching your video and stills on a large screen HDTV. An external mic input allows use of a higher grade mic for higher quality sound recordings. Charge the camera using your computer's USB port or with the included AC adapter.

Hi-Speed HD *(B&H# AIHISPEEDHD)* **94.95**

A-HD+ 1080p HD Camcorder

The A-HD+ steps up with the ability to record 1080p HD video (1440 x 1080) at 30 fps, a 4x digital zoom lens and 8MP digital camera. Although it has a 128MB memory, you can record up to 8 hours of 1080p HD video on a removable 32GB SD/SDHC card. It also has a video input allowing you to record movies or TV shows from your TV, VCR or DVD player for viewing on the 2.4" LCD. Plug in a pair of headphones into the hadphone jack and you have a personal media or MP3 player. (It doesn't have an external mic input).

A-HD+ *(B&H # AIAHD1080P)*..... **119.95**

Action-HD 1080p HD Camcorder

The Action-HD steps up (from the A-HD+) with a 3x optical zoom autofocus lens, LED lights to help focus and boost images in low light, and a 2" macro zoom for up-close stills and video. It also includes a remote control and a compact alloy tripod.

Action-HD+ *(B&H # AIAHDPRO)*..**149.95**

Action-HD GVS 1080p HD Camcorder

The top-of-the-line Action-HD GVS features a 5x optical zoom and Gyroscopic (image) stabilization that cuts down on blur from hand shake or a moving subject. It has a 3" swivel-reversible LCD display that rotates up to 270° and Night Shot mode for recording in low light situations. It has an external mic input, but no video input. It also doubles as a 5-megapixel digital still camera. In Burst mode, can shoot 10 frames per second, and has a built-in flash with red-eye reduction.

In Black *(# AIAHDGVSB)* or Silver/Black *(B&H# AIAHDGVS)* **179.95**

Compact Alloy Tripod

Compact, table-top tripod for use with Aiptek cameras or any other small camera using a 1/4-20 connection. This sturdy base comes with a stabilizing ring allowing full circle pivoting.

Compact Tripod *(B&H# AIZACSTD4)*..... **12.95**

SANYO

VPC-CG10 Dual Camera Xacti

The VPC-CG10 records HD 720p video at 30fps and up to 10 megapixel digital photos with a 5x optical zoom (38-190mm equivalent). This in a very stylish, sleek, upright design. It has a large, 3" display that flips out from the camera and rotates up to 285° on an axis that allows you to take great video or still images from otherwise-difficult-to-view positions. Especially useful when shooting in confined spaces. For convenience, videos, still photos and the various settings / menus can be easily accessed with a user's thumb. The camera easily fits in a coat pocket and makes sharing videos and photos via social networking web sites, portable video devices like iPod's, TV's and computers, easy.

VPC-CG10: Available in Black *(SAVPCCG10BK)* or Pink *(SAVPCCG10P)*.....**149.95**

VPC-HD2000ABK Dual Camera Xacti

Featuring an HD lens, high-speed CMOS sensor, and high-speed processor, the VPC-HD2000ABK records clear and smooth Full HD 1920 x 1080p video. It is also capable of high-speed shooting at 600 fps/240 fps, which lets you view fast-motion videos, such as sports scenes, in slow motion—impossible on a normal camera. It can capture realistic 8-megapixel photos, (12 MP interpolated). Ergonomic design prevents muscle fatigue and maintains a horizontal lens orientation even when the camera is mounted on a tripod. At the same time, it's still compact enough to grip in your hand. Stand-alone shutter buttons that let you start shooting a video or a photo with a single thumb press. There's no need to press a separate mode switch, and you can even shoot photos and videos simultaneously.

VPC-HD2000: Available in Black *(SAVPCHD2000B)*..... **494.95**

New Sanyo Cameras Are Here!

VPC-SH1 Dual Camera in Black *(SAVPCSH1BK)* **399.00**

All Sanyo Xacti Cameras Feature:

- Designed to fit in the palm of your hand, they feature an easy to navigate menu which make them a great choice for the beginner and the more advanced user. They are the perfect blend of style, performance, and ease of use.
- AVCHD format makes sharing videos and photos via e-mail or web sites a breeze. Import video and still image files directly into iTunes, then port them to a video-capable iPod.
- Using Face Detection technology, they recognize up to 12 faces for videos and still pictures and optimize focus and aperture settings to ensure all subjects are in focus.
- Take pictures like the pros with sequential shooting up to 13 frames per second (7 fps on the VPC-CG10).
- Sophisticated image stabilizer automatically compensates for distracting up-and-down or side-to-side camera movement, keeping your subject steady and easy to follow. It accurately distinguishes between unintentional camera shake and deliberate camera movement. Operates in both wide-angle and telephoto modes.
- Record 4 hours of HD video on a 16GB SDHC memory card
- Simultaneously shoot video clips and still images. Never miss another precious photo opportunity (not the VPC-FH1).
- They all have (except on the VPC-CG10) an HDMI output for a single cable connection to an HDTV or DVD recorder
- Supplied battery provides over 3 hours of recording time.

VPC-WH1 Dual Camera Xacti

The VPC-WH1 has the highest possible waterproof rating—IPX8—allowing you to record stunning 720p AVCHD video 10' underwaterfor an entire hour. Small and stylish, it features an extra long 30x optical zoom (35mm equivalent of 43-1290mm), 2.5" display that flips out and rotates up to 285°and an easy to navigate menu.

VPC-WH1: Available in Blue *(B&H # SAVPCWH1BL)* or Yellow *(B&H # SAVPCWH1YL)*..... **329.95**

VPC-FH1A Dual Camera Xacti

Take stunning full 1080p High Definition video at 60fps and amazing 8 megapixel digital photos. Compact and stylish, the palm fitting VPC-FH1A features a large, 3" LCD display that flips out from the camera and rotates up to 285°, an easy to navigate menu, 600fps slow motion mode, and face chasing technology which automatically read and corrects focus and lighting for up to 12 different subjects. It has a 16x optical zoom lens for video and a 10x optical zoom lens for photo. Videos, still photos and the various settings and menus can be easily accessed via your thumb.

SMX-F40 Standard Definition Camcorder

The SMX-F40 features large high-performance 1/6" CCD sensors, extended battery life and Samsung's 65x Intelli-Zoom to record 720 x 480 standard definition video and 1600 x 1200 still images to SD/SDHC memory cards. Utilizse H.264 compression which makes it easy to upload files to social networking sites, has a 2.7" LCD and offers user-riendly features such as Face Detection, interactive thumbnails, and USB battery charging.

- Provides over four hours of battery life on a single charge. When combined with the use of H.264 compression, users can store up to six hours of video per 16GB of memory.
- Incredible 65x Intelli-Zoom lens (52x optical zoom) allows users to bring distant images into focus and zoom closer to the action from further away.
- Smart Auto analyzes key elements of a scene's composition such as color, brightness, motion and subject and then automatically selects the appropriate scene mode (has 8 scene modes).
- Face detection automatically recognizes up to five faces and adjusts settings to ensure that each is properly within focus.
- Time lapse recording lets you program the camcorder to record one image at pre-set intervals of 1, 3, 5, 10, 15, or 30 seconds
- Animated thumbnails makes it easy find video clips. Each video clip saved on the camcorder is represented by a small thumbnail on the LCD. When scrolling through one's videos, each thumbnail will provide a short playback of the video file when highlighted.
- Shoot 1.9 megapixel still images with 1600 x 1200 resolution.

 # SASMXF40B **199.00**

HMX-200 • HMX-203 • HMX-204 • HMX-205 Full-HD Flash Camcorders

The HMX-200, 203, 204 and 205 offer full 1920 x 1080 HD video, Schneider Kreuznach Varioplan HD lens, and state-of-the-art design with internal SSD (Solid State) drives. Lightweight and compact, the drives operate silently with very low heat emission, and feature no moving parts, which reduces power consumption and enhances reliability. No moving parts also make them more durable and resistant to shock and vibrations, which can ruin performance of HDD based digital camcorders. SSD technology is also faster than HDD, including quicker boot-up and read/write speeds which is required for the amount of data recorded in full-HD resolution. When actively reading and writing data, Samsung's SSD technology consumes approximately 1/8th of the power of a comparable HDD.

- 1/4.1" 3.3MP BSI CMOS Image Sensor provides double the light sensitivity of normal CMOS sensors and reduces light loss.
- In addition to the internal SSD drive, their memory capacity can be expanded using an SD/SDHC memory card. Theu use H.264 compression, which significantly increases recording time. At full-HD resolution, users can record for 12 hours on the HMX-H205.
- They incorporate a 20x wide-angle (37-740mm equivalent) Schneider Kreuznach Varioplan HD zoom lens which is paired with Samsung's Optical Image Stabilizer to reduce blur from vibrations or hand shake.
- While recording full HD videos, you can simultaneously capture 4.7-megapixel digital still image.
- HD Time Lapse recording mode lets you record a single image at pre-selected intervals of 1, 3, 5, 10, 15, or 30 seconds, and will save each image as one single movie file.
- Digest/Storyboard function captures 16 still images from the video you select and saves themto the storage media. You get a quick overview of your video -great to quickly review a video.
- One-touch upload to YouTube and built-in intelli-studio software for in-camera editing.

HMX-S10 • HMX-S15 • HMX-S16 Full HD Camcorders with Wi-Fi

The HMX-S10, HMX-S15 and HMX-S16 are the world's Full HD camcorders to include built-in Wi-Fi and DLNA connectivity. This allows users to easily access, manage and share content including their full-HD videos across other DLNA certified devices. And with integrated Wi-Fi connectivity, there is no need to connect any cables to view HD video or digital still images on a TV or compute. They incorporate a revolutionary new BSI CMOS imaging sensor designed to absorb more light than other conventional sensors and deliver unprecedented low-light performance while recording 1920 x 1080i video. Even better, they offer 1080p up-conversion of footage to an HDTV. Otherwise the same, the HMX-S10 records to SD/SDHC cards, the HMX-S15 adds an internal 32GB SSD drive, the HMX-S16 steps up with a 64GB SSD drive.

- Powerful Schneider Kreuznach Varioplan-HD lens with 18x Intelli-Zoom goes beyond their 15x optical zooms without sacrificing image quality. The lens is paired with Optical Stabilization to help reduce image blur and shaky video, which can be especially helpful when using the camcorders' full optical zooms.
- Charge or power the cameras, whether you're shooting or not, using the USB cable and your computer.
- Large 3.5-inch wide touch-screen LCD with a 3D graphic user interface (GUI). The ultra-bright, swiveling, WVGA LCDs and GUI not only offer fascinating visual effects but grant users uncomplicated, intuitive and easy access to all of the camcorders' advanced functions.
- The Intelli-Studio 2.0 software allows users to view, edit, and upload content to the web from any PC anywhere in the world.

HMX-S10 *(SAHMXS10)*: SD/SDHC Only..... **799.00**
HMX-S15 *(SAHMXS15)*: SD/SDHC and 32GB Solid State Drive (SSD) **999.00**
HMX-S16 *(SAHMXS16)*: SD/SDHC and 64GB Solid State Drive (SSD) **1199.00**

HMX-U15 • HMX-U20 Ultra-Compact Full-HD Camcorders

The HMX-U15 and HMXU20 deliver Full-HD 1920 x 1080 recording in an extremely portable design measuring just 2.1" x .61" x 4.09". They feature a 7° slanted ergonomic handgrip that saves your hand and wrist from unwanted strain, while keeping the lens angled at just the right pitch, allowing you to maintain the most comfortable and natural position while shooting video and stills. Video and images are stored on SD/SDHC memory cards.

- The HMX-U15 has a 1x zoom fixed focus lens and can capture 14MP still images, while the HMX-U20 steps up with a 3x optical zoom and 10MP still capture. View images on the 2" LCD screen on the back of the camera. They also include Hyper Digital Image Stabilization to help produce blur-free video.
- They offer one-touch upload to YouTube and built-in intelli-studio software for in-camera editing. For creativity, time lapse recording allows users to program the camcorder to record at a pre-set interval of one image every one, five, 10 or 30 seconds.
- For added convenience, a built-in, swing-out style USB connection gives users the ability to forego having to always carry a separate USB cable to connect and upload footage to a computer. The built-in USB connection can also recharge the camcorder's battery, eliminating the need to take along a separate charger while on-the-go. Furthermore, HDMI connectivity, allows users to enjoy their full HD video on their HDTV.

HMX-U15: Silver *(SAHMXU10BN)* or Red *(SAHMXU10RN)* **179.95**
HMX-U20: Available in Black *(SAHMXU20B)*, Blue *(SAHMXU20BL)* Silver *(SAHMXU20S)* or Red *(SAHMXU20R)* **199.95**

HMX-M20BN Full-HD Camcorder

The HMX-M20BN captures full HD video at 1920 x 1080p to SD/SDHC memory cards. It also takes 12MP digital stills and features a number of other user-friendly features and functions.

- 12x Intelligent Zoom allows you to go beyond the camcorder's 8x optical zoom without sacrificing image quality.
- The unique 25° Active Angle Lens promotes a healthy hand position and eliminates wrist pain and fatigue, enabling you to shoot in comfort for extended periods of time.
- Smart Auto analyzes key elements of a scene's composition such as color, brightness, motion and subject and then automatically selects the appropriate scene mode (has 8 scene modes).
- Time lapse recording lets you program the camcorder to record one image at pre-set intervals of 1, 3, 5, 10, 15, or 30 seconds
- The Intelli-Studio 2.0 software allows users to view, edit, and upload content to the web from any PC anywhere in the world.
- Animated thumbnails makes it easy find video clips. Each video clip saved on the camcorder is represented by a small thumbnail on the LCD. When scrolling through one's videos, each thumbnail will provide a short playback of the video file when highlighted.
- HDMI output for playback on widescreen HDTV
- Photo mode allows you to use the camcorder as a digital camera. Want a still photo instead of video? Leave your camera at home and snap 12MP images
- 2.7" touch screen LCD display for capture and playback of video and still images, and navigation of menus

FS-300 • FS-31

Standard Definition Flash Memory Camcorders

Measuring just 2.2 x 2.3 x 4.8" (WHD), the ultra-sleek FS300 combines big video storage capacity in a compact camcorder weighing only 7.9 oz. It features a 680,000-pixel CCD sensor, Genuine Canon 41x Advanced Zoom, and DIGIC DV II Image Processor for exceptional color and clarity. Available in three fashionable colors, the FS-300 offers Image Stabilization 2.7" Widescreen LCD and records video directly to an SDHC memory card. It also offers a host of conveniences including, Video Snapshot, Quick Start, Quick Charge, Dual Shot, joystick control, Program AE modes and more. Stepping up, the FS31 adds dual flash memory capability. In addtion to recording to an SDHC memory card, the FS31 incorporates a 16GB internal Flash drive, for up to 10 hours of video recording.

- DIGIC DV II Image Processor allows continuous shooting of up to five 1024 x 768 still images per second.
- Image stabilization gives your video a more professional look, with rock-steady shots, even when shooting at max. telephoto.
- Record high-resolution 16:9 widescreen video.
- Dual Shot Mode lets you capture video and photos in the same mode - without requiring any switching.
- For the best exposure for various situations, the Program AE mode will automatically adjust the settings to compensate for the conditions and subject. Choose from Portrait, Sports, Night, Snow, Beach, Sunset, Spotlight and Fireworks.
- In Video Snapshot Mode capture a series of 4-second video clips, then blend in one of 10 supplied music tracks, or your favorite background music to create an entertaining movie.
- Level Marker makes it easy to keep your camera level for more better looking video, while a Grid Marker lets you compose hots accurately, according to the grid in the viewfinder.
- Built-in electronic lens cover means you never have to go looking for your lens cover again.
- Hi-speed USB 2.0 for ultra-fast transfer of movies and photos.
- When in Camera Mode and the LCD panel is closed, the camcorder is placed in standby mode. When the action starts, open the LCD panel and you start recording in less than one second.
- Pre-Record gives you a head start on capturing the action by continuously recording three seconds of video to memory before you even press the record button. When you start recording, the additional video also recorded.
- With the optional Canon's DW-100 DVD Burner, a single cable, and the click of a few buttons is all you need for your videos to be burned to a disc ready to play in a compatible DVD player.
- Quick Charge feature gives the supplied lithium-ion battery 30- or 60-minutes of juice, in just 10- or 20-minutes of charging (respectively). The battery also keeps you informed by displaying remaining battery life to the minute.
- Bundled ImageMixer 3SE software (Windows XP and Vista compatible) lets you play back recorded video on a computer, as well as edit your footage and burn it to a DVD. Trim, reorder, and combine scenes, as well as add music, titles, and transitions.

FS-300: Available in Silver *(B&H# CAFS300S)*, Blue *(B&H# CAFS300BL)*, and Red *(B&H# CAF3200R)* **299.99**
FS-31 *(B&H# CAFS21)* **349.99**

Vixia HV40 HDV Camcorder

The VIXIA HV40 shares the core components found within the VIXIA line, but also offers a Genuine Canon 10x HD Video Lens and 2.96 Megapixel Full HD CMOS Image Sensor. What's more, it also allows users to record in native 24p Mode—allowing you to capture and record 24 progressive fps (frames per second) to a HDV tape, a big advantage for the serious filmmaker. SuperRange Optical Image Stabilization and Instant Auto Focus give the control demanded by high definition. If you wish to continue to use your existing SD (Standard Definition) equipment, the HV40 has both SD and HD recording modes. Another add-on feature, Custom Key Mode, enables users to assign commonly used functions to a single button on the camcorder for easy access.

- 2.96MP full HD CMOS sensor delivers 1920 x 1080 HD video, while Canon's DIGIC DV II Image Processor reduces image noise and customizes the color and tonality of your video and still images.
- 10x HD Video Lens with three fixed zoom speeds for fluid transitions. Super spectra coating eliminates flare and ghosting, while the aspheric design cuts down on aberration while boosting resolution.
- 2.7" multi-angle widescreen LCD with hard coat AR surface reproduces color accurately with reduced glare and enhanced contrast.

DW-100 DVD Burner

Share your best camcorder footage with family and friends, or burn DVDs for archival backup. This easy-to-use DVD burner records onto DVD-R/-RW/-R DL (dual-layer) DVDs in either AVCHD high definition or standard definition. Transfer and back up footage from your Canon HDD or flash memory camcorder via USB 2.0.

- Only 3 buttons
- Transfers photos
- Plays back to HDTV via camcorder
- Compatible with 8.5GB High Capacity DVD-R DL discs, for approx. 2.6 hours of recording time
- 3 backup modes: entire media file, new scenes, or playlist

DW-100 *(B&H# CADW100)* **169.95**

Canon

VIXIA HF R100 • HF R10 • HF R11

HD (High Definition) Flash Memory Camcorders

The VIXIA HF R100, HF R10 and HF R11 are affordable Full 1920 x 1080 HD video flash memory camcorders. Perfect for those on a budget, they feature Genuine Canon 20x HD Video Lens and Dynamic IS that works in combination with sophisticated Canon HD image processing to deliver the sharp, vivid, lifelike video you want to see on your HDTV. They also feature Instant AF, Canon Face Detection, HDMI output, external mic input, 24p and 30p frame modes, built-in digital camera, easy file sharing, Smart Auto and Advanced Video Snapshot that lets you create 2-, 4- or 8-second movie clips, with music, that are perfect for sharing. Otherwise the same, the HF R100 records to an SD memory card, while the HF R10 and HF R11 also incorporate 8GB and 32GB of internal flash memory (respectively). The HF R10 and HF R11 also feature Canon's Relay Recording and HD-to-SD Downconversion.

- Genuine Canon 20x HD Video Lens delivers unsurpassed image quality. They capture 1920 x 1080 HD video via Canon's exclusive 2.39-megapixel HD CMOS Image Sensor captures high definition video and photos with astonishing detail, while DIGIC DV III Image Processor provides the ultimate in color and imaging performance, with enhanced reproduction of difficult to capture purple and blue tones.
- Dynamic IS (image stabilization) system provides continuous adjustment throughout the entire zoom range to correct a broader range of motion. Extra compensation is applied at wide-angle focal lengths to eliminate unwanted vibration common when shooting while walking.
- HD-to-SD Downconversion feature (HF R10/R11 only) enables users to convert recorded HD video to standard-definition files while preserving the original HD video. These standard-definition files make it even more convenient to share video online or create a DVD.
- Relay Recording allows users to capture uninterrupted video when the primary recording media is full. The HF R10/R11 will continue to record a scene by switching from one memory source to the other as it fills up, so that you won't miss a moment of action.
- Smart Auto intelligently detects and analyzes faces, brightness, color, distance, and movement, then automatically selects the best settings for the scene. Whether you are capturing a sunset, a day at the beach, or a fast-paced soccer game, Smart Auto delivers exceptionally accurate results.
- Easy, one-cable connectivity to your HDTV is achieved via the HDMI terminal which also supports CEC and x.v.Color. An external microphone input with manual audio level control and headphone terminal provide exceptional audio flexibility.
- 2.7" Widescreen LCD features hard coat anti-reflection surface, improved color reproduction and wider range of viewing angles—so you see more of what you're recording.
- With Canon's high quality Face Detection technology, up to 35 faces can be detected automatically, and 9 detection frames can be displayed at one time. This ensures razor-sharp focus and natural, accurate exposure of the chosen subjects. It recognizes faces that are turned downwards or sideways. In addition, a specific face may be used to search for clips featuring that specific subject's face.
- Advanced Video Snapshot mode lets you capture the highlights of a once in a lifetime trip with the same ease as taking photos. Simply record a series of short video clips (2, 4, or 8 seconds) – or select your favorite clips while in Playback Mode – and blend in background music to create an exciting movie. Additionally, audio from an external source, such as an MP3 player, can be played along with the snapshot movie and playback can be controlled from that source.
- They are also compatible with the Eye-Fi SD Memory Card. This makes it possible to wirelessly transfer photos to your computer, or upload them directly to online sharing sites in a few simple steps.
- 24p Cinema Mode enables uses to achieve a professional "film-look". Change the camcorder's frame capture rate to 24p (recorded at 60i), which provides the appearance of the same frame rate as movie film. In addition, CINE mode changes the color and tonal characteristics, evoking the look and feel of a movie shown in a theater. For added flexibility, these settings can be used together or independently.

VIXIA HF M300 • HF M30 • HF M31

HD (High Definition) Flash Memory Camcorders

Offering stunning Full 1920 x 1080 HD video in an ultra-sleek, compact and lightweight body, the VIXIA HF M300, HF M30 and HF M31 step up from the VIXIA HF R series with a 3.89-megapixel HD CMOS Image SensorGenuine Canon 15x HD Video Lens, a 2.7-inch Touch Panel LCD with Touch & Track technology and Dynamic SuperRange Optical Image Stabilization and optional 5.1-channel surround sound recording. Otherwise the same, the HF M300 records to an SD memory card, while the HF M30 and HF M31 also incorporate 8GB and 32GB of internal flash memory (respectively).

- In addition to Canon's Dynamic SuperRange Optical Image Stabilization, Powered IS provides an even higher level of compensation for subtle hand movement at the telephoto end of the zoom range. This new enhancement can be engaged by pressing the Powered IS button on the LCD panel.
- For the ultimate home theater experience, 5.1-Channel Surround Sound (optional SM-V1 5.1-Channel Surround Microphone required) allows you to capture audio quality that matches the stunning realism of your high definition video. The sound is captured from all directions (five different pickup sensors) so your home movies will look and sound more lifelike than ever before.
- 2.7' widescreen Touch Panel LCD with Touch & Track for faster and easier menu navigation. Touch & Track delivers precise tracking of the focus and exposure on any subject- people, pets, vehicles and more. Simply select your point of interest on the Touch Panel LCD, and you will have your subject in sharp focus, regardless of where in the frame it moves during the shot – and, the exposure will be perfectly adjusted for subject and conditions. Touch & Track is the default setting. You can also choose to adjust focus or exposure independently by turning off Touch & Track, and turning on Touch Focus or Touch Exposure.

Everio S Series, Everio G Series and Everio HD Series All Feature

- Advanced Image Stabilizer ensures steady images even while walking, and is especially effective when shooting bright scenes from full wide to 5x zoom. Advanced Image Stabilizer uses a wide-angle image sampling area that is four times larger than that of conventional systems.
- Super LoLux improves low-light sensitivity to capture clear images with precise colors even in low-light environments. Super LoLux is made possible a high-sensitivity 1/6" CCD.
- Time-Lapse recording lets you shoot in one- to 80-second intervals, enabling hours-long segments to be reduced to seconds, such as the continuous recording of changing sky patterns spanning an entire day.
- Auto record automatically initiates recording when a person or other moving subject enters the picture and the luminance changes, a great convenience for home surveillance, monitoring a baby, recording wildlife, taking group shots (instead of using a self-timer) and more.
- Each is equipped with a 2.7" color LCD monitor. Opening the LCD automatically opens the built-in lens cover and powers up the camcorder. Closing the LCD also closes the lens cover and shuts down the power. Quick Restart allows recording to start one second after the LCD is re-opened.
- Built-in light turns on automatically so you can shoot brilliant images even in low light situations
- To easily check the content on Everio's HDD or SD/SDHC card, the Digest Playback unction automatically selects highlight scenes using JVC's proprietary algorithm and plays back what looks like a "coming attractions" trailer for a movie. 60 minutes of footage is condensed into five minutes of highlight scenes.
- Data battery allows you to check the remaining power by % and remaining recording time in minutes
- Zoom and record using the Laser Touch scroll bar or buttons next to the LCD, or with the standard zoom lever and REC button. Laser Touch also makes it easy to browse through thumbnail images of recorded scenes and access menu selection.
- One Touch Export function allows videos to be imported into iTunes and loaded into an iPod or iPhone.
- Conveniently upload videos to YouTube™ via One Touch Upload function. Users can perform an in-camera edit of any length video to fit the 10-minute YouTube limit.
- Grip belt works in two handy ways, as a conventional handle-style grip when both ends are snapped in place or as a strap when one end of the belt is released.
- Bundled Everio MediaBrowser software (Windows) provides an easy-to-search calendar-type graphical interface for indexing and finding video files with thumbnail images of recorded videos and stills are superimposed on the calendar. With built-in filter func just videos, just stills, and so on.
- The software also allows easy playback, simple cut editing, and "Decomotion" to spruce up recorded footage with animated graphics for upload to YouTube. Supports burning to Blu-ray disc in addition to DVD.
- Optional CU-VD50 Direct DVD Burner/Player lets you burn videos to a DVD disc without having to use a PC.
- With the CU-VD50 or with a DVD burner equipped PC, you can burn a full-sized DVD-Video disc at the touch of a button. Just press the DIRECT DVD button on the camcorder, and the DVD burning process starts automatically. Automatically transfer only newly recorded data to the burner, just the scenes you manually select, or pre-select the scenes you want in the order you want internally at the camera using the Playlist function.

GZ-MG750
Everio G Series Hybrid (microSD/SDHC & Hard Disk) Standard Definition Camcorder

With a built-in 80GB HDD, the GZ-MG750 can hold up to 100 hours of video. Using optional microSD/SDHC memory cards expands the camera's capacity even further. The camera also features a 1/6" CCD image sensor with Super LoLux low light recording, 45x Dynamic zoom, an Advanced Image Stabilizer, and JVC's Laser Touch Operation LCD. In addition to these components the camera comes with user-friendly functions designed to make your recording experience an easier one. You'll benefit from Auto REC, Time-Lapse REC, a video light, and a 2-way grip belt. When you're all done recording the included Everio MediaBrowser editing software helps you edit, manage, and share your footage.

JVC

GZ-HM300 • GZ-HM320 • GZ-HM340 • GZ-HD500 • GZ-HD620

Everio Memory and Hard Disk HD Camcorders

JVC's Everio HD camcorders record 1920 x 1080 full HD video, the GZ-HD500 and GZ-HD620 offer HDD storage for extra-long recording times. The GZ-HM300 offers dual SD card recording with continuous recording from one card to the next, and is one of the smallest and lightest full HD camcorders available. The GZ-HM320 and HM340 record to internal memory or an SD card. They all feature a 1.37 megapixel CMOS image sensor, and maintain native 1920 x 1080 resolution through playback, enabling output of a 1080p to make the most of high-end HD displays.

- 1.37MP CMOS sensor captures HD video and stills with clarity
- 20x Konica Minolta HD zoom lens provides a high-performance "eye" for the capture of Full-HD resolution images.
- In UXP video recording mode, you can record at 24Mbps, the highest bit rate possible for AVCHD video, for more detailed, sharper images with less noise
- Face Detection detects up to 16 faces then accurately adjusts the focus and exposure. It works for both video and digital stills. And while browsing through scenes in the Play mode, thumbnails can be displayed with close-ups of detected faces so you can easily identify who's in the file.
- HDMI (1.3) output for connection to a large screen HDTV

GZ-HM300: SD/SDHC Card Dual Slot in Black *(B&H# JVGZHM300BUS)* **359.95**

HD Everio GZ-HM550 9-Megapixel Dual Use Hybrid Camera

The hybrid Everio GZ-HM550 offers the powerful shooting combination of Full HD video and 9MP still photos, plus creative shooting functions such as slow motion video and high speed "motor drive" still photography. It is also equipped with Bluetooth enabling control of the camera using a smartphone, geo-tagging of videos and stills and use with a compatible Bluetooth headset. Use the camera with a GPS device to record location data of where movie and still files were recorded. The data synchronizes with Google Earth when viewing the file on a PC using the bundled Everio MediaBrowser software. The camera can also be used with a Bluetooth-equipped headset to monitor the recorded sound or for voice recording.

- Up to six 9-megapixel stills can be shot at 15 images per second – faster than what digital SLRs can achieve
- Record to the built-in 32GB internal memory for up to 15 hours in EP mode. You can record another 15 hours when you use an optional 32GB SD/SDHC memory card. The camera features seamless recording, meaning that when the flash memory fills, recording will automatically switch to the inserted SD/SDHC card.
- 2.8" LaserTouch LCD gives you a wide surface on which to compose and playback all your shots.
- Konica Minolta HD Lens with a 16x optical zoomc captures your video and still images with clarity.
- Face detection technology assures accurate focus and exposure, and HDMI (1.3) output for connection to large screen HDTV.
- Comes with a remote for controlling the camcorder from a distance. Helps you keep the camera steady, and allows for self-recording.

GZ-HM550 *(B&H #JVGZHM550BUS)* **719.95**

HD Everio GZ-HM1 & GZ-HM550 Both Feature:

- High-speed recording function shoots ultra-slow motion video. Any one of three speeds – 120 frames per second (fps), 300fps and 600fps – can be selected; the faster the recording speed, the slower the playback motion. With this function, 2.4-second bursts of video are recorded that are then played back over a period of up to 24 sec., 20x longer than normal speed.
- One Touch Export function to export videos into iTunes for playback on an iPod or iPhone. A One Touch Upload function simplifies uploading videos to YouTube.
- AVCHD UXP mode (bit rate of up to 24Mbps) delivers more detailed, sharper images with less noise.

HD Everio GZ-HM1 10.6-Megapixel Dual Use Hybrid Camera

The HD Everio GZ-HM1 features 1920 x 1080 AVCHD recording and 10-megapixel digital still capture up to ISO6400 along with 64GB of built-in flash memory storage and the option to record to SD/SDHC memory cards. It has a 2.8" LCD and includes a Konica Minolta HD lens with 16x Dynamic zoom and JVC-developed optical image stabilizer that uses two active prisms to compensate in the horizontal and vertical directions, providing the same effectiveness throughout the entire zoom range, from wide to telephoto.

- For still image shooting, up to 60fps 5.3-megapixel stills can be shot in a continuous burst of up to 11 images. Or, if preferred, continuous shooting of up to six 10 megapixel stills at up to 15fps is also possible. It is also possible to shoot 5.3-megapixel stills simultaneously while recording 1920 x 1080 Full HD video.
- To shoot stills, it offers aperture- and shutter priority modes, controls for manual brightness and focus adjustment.
- Konica Minolta HD Lens with a 16x optical zoom captures your video and still images with clarity.

GZ-HM1: *(B&H# # JVGZHM1)* **1199.95**

JVC

CU-VD3

Everio Share Station Direct HD DVD Burner

Connect your camcorder via USB 2.0 directly to the CU-VD3 and you can burn a 1-hour DVD (4GB) in just 30 minutes. It is compatilble with AVCHD and MPEG-2 formats, and AVCHD created discs are also playable on compatible Blu-ray players. Plus, it can be connected to your PC, so it can be used as an external DVD burner for your videos and data as well. Uses DVD-R/-RW disc, DVD-R DL disc supported. Can be used horizontally or vertically with the included stand.

CU-VD3 *(B&H# JVCUVD3)* **179.95**

CU-VS100 HD Media Player

If your camcorder uses SD cards, you're ready to use this player. Instead of connecting camcorder to TV each time you want to watch, simply insert the recorded SD card and enjoy playback right away. And since it supports still image and music data too, count on it to entertain you.

CU-VS100 *(B&H# JVCUVS100US)* **179.00**

CU-VD40

Everio Share Station Direct DVD Burner

Connect your camcorder directly to the CU-VD40 via USB 2.0 and you can burn a full-sized DVD-Video disc without a PC. Burning operations are controlled from the Everio itself or by its remote. The camcorder converts Everio MOD files to the DVD Video format. HDMI and component connections ensure the highest quality HD recordings possible. Supports DVD-R/W and DVD-R DL discs.

CU-VD40 *(B&H# JVCUVD40)* **129.95**

CU-VD50

Everio Share Station Direct HD DVD Burner

Connect your camcorder via USB 2.0 directly to the CU-VD50 and you can burn DVD discs with both AVCHD and MPEG-2 formats. Created AVCHD discs are also playable on compatible Blu-ray players. You can choose to superimpose the recording date and time info on the DVD playback screen (HD Everio models only). And when burning a DVD, a menu screen is automatically created according to the Event Icon theme that has been selected.

- Not limited to use with Everio. When connected to your PC, it can be used as an external DVD burner for your videos and data, too.
- Uses DVD-R/-RW disc, DVD-R DL disc supported.
- Can be used horizontally or vertically with the included stand.
- HDMI, component (Y, Pb, Pr) video and composite video and audio output udio/Video output
- 1920 x 1080 output & with x.v.Color™ • Includes remote control
- DVD burning operation can be controlled by Everio camcorder

SDR-SW21

Waterproof SD Card Camcorder

Like the SDR-S15 (above), SDR-SW21 records to SD/SDHC Memory Cards, allowing it to be lightweight and compact, ideal for active and on-the-go users. However, the SDR-SW21 is a tough and compact camcorder that is waterproof up to 6.5' in both fresh and salt water; shockproof enough to sustain a 4' drop; and dustproof to protect against particles such as dirt, sand, and dust. The SW21's rugged design makes it ideal for creating videos outdoors and for those with active lifestyles. Equipped with a 10x optical zoom and Electronic Stabilization, it also features a fast 0.6 second quick-start recording so users can easily catch those spontaneous video moments.

- Connect the camcorder to a computer using a USB cable, the bundled VideoCam Suite software automatically starts up, making it possible to seamlessly upload videos that are correctly formatted for video websites for sharing, such as YouTube.
- The SDR-SW21 can easily copy video from an SD card to DVD in one simple step. By connecting to the optional VW-BN1 DVD burner using a USB cable, video r can be copied to a 12-cm DVD disc (DVD-RAM/-RW/-R/-R DL) —no computer needed.
- 2.7" wide LCD gives you a generous platform on which to compose and playback video and stills.

SDR-SW21: In Orange *(PASDRSW21D)*.....**Call/Log-on**

Panasonic

HDC-SD60 • HDC-TM55 • HDC-HS60

High Defintion Flash Media and Hard Disk Drive Camcorders

The HDC-SD60, HDC-TM55 and HDC-HS60 are introductory HD camcorders featuring a powerful 25x optical zoom. And with Panasonic's Intelligent Zoom feature, it can extend to a 35x zoom. Intelligent Zoom corrects image degradation in ordinary digital zooming to deliver stunningly clear HD quality, even with the zoom fully extended. They also feature Panasonic's iA (Intelligent Auto) with Face Recognition (six faces) to automatically prioritize focus and exposure on the registered face. In addition, the focus continues to track the subject as the person moves anywhere within the LCD frame, making it easy to focus on a specified person in a group. Other iA features include: AF/AE Tracking, Intelligent Scene Selector, and Intelligent Contrast.

- 5x the corrective power of previous versions, POWER O.I.S. helps suppress blurring from low-frequency vibration. They also feature Active mode in POWER O.I.S. which minimizes the blurring while the user is moving and walking.
- Wind Noise Canceller: automatically detects and suppresses wind noise to help ensure natural sounds with lifelike ambience.
- Touch-screen icons displayed on the LCD lets users operate a variety of functions intuitively without taking their eyes off of the subject they are recording.
- They automatically adjust he brightness of the LCD screen according to the shooting environment. In dark places, the screen brightness is reduced to 1/3 the normal level. In bright outdoor places, the screen brightness is double the normal level.
- Connect a Panasonic HD Camcorder to a Panasonic VIERA HDTV via an HDMI mini cable, and operate the camcorder using the TV's remote control and follow on-screen prompts.
- Record up to 4 hours/12 hours in highest/lowest quality mode on 32GB SD/SDHC memory card.

HDC-TM700 • HDC-HS700

3MOS Flash Media and Hard Disk Drive HD Camcorders

Semi-professional camcorders, the DC-HS700 and HDC-TM700 are Full HD 3MOS camcorders with 1920 x 1080 resolution. They combine 1080/60p (28 Mbps) recording – allowing them to capture expressive video without detail loss or flickering – with an advanced 3MOS system that produces vivid, true-to-life colors and excels in low-light environments. Both have a 35mm wide-angle Leica lens and a 3.0" touch-screen LCD that allows users to navigate by selecting icons on the display. Equipped with a 1/4-inch image sensor and large-aperture 12x Leica Dicomar lens, they also record still images with a 10.6-megapixel resolution and feature an 8.3-megapixel resolution for still images when simultaneously recording with video.

The HDC-HS700 can store 102 hours of recording (in HE mode) on to its 240GB HDD, When combined with 64GB SDXC Memory Card, the camcorder provides an additional recording time of 27 hours. The HDC-TM700 has a 32GB built-in memory for almost 14 hours of recording (in HE mode).They use use three full-HD MOS sensors to deliver the highest quality video and still images.

- Large-diameter F1.5 (46mm) Leica Dicomar lens provides superb image rendering and not only suppresses ghosting and flaring, but also minimizes the distortion and degradation of contrast and resolution. In addition, its 35mm wide-angle capability makes it ideal for many different shooting situations, such as self-portraits, group photos, and landscape shots.
- 12x optical zoom lens is further enhanced by Intelligent Resolution Technology to extend the zoom 1.3x to an 18x Intelligent Zoom, while maintaining the image quality.
- High-Density 1080/60p recording produces 60 images per second. This extremely dense image information creates intricate detail and silky smooth motion. Even when subjects move quickly, afterimages are minimized to create more natural footage. The progressive method is most effective when shooting detailed designs where moire patterns tend to occur, or when capturing scenes during sports events where the subjects are in constant motion. Also, the recorded images are displayed clearly even when they are made into still images, so it is possible to preserve stunning photos when clipping them from videos
- Manual ring allowing creative flexibility, so users have intuitive control of the zoom, focus, aperture, shutter speed and white balance. An electronic viewfinder, headphone and microphone input allow for even more control.
- POWER O.I.S. helps suppress blurring from low-frequency vibration. They also feature Active mode in POWER O.I.S. which minimizes the blurring while the user is moving and walking.
- Record 5.1-channel surround sound with zoom microphone. They use five microphones so when voices/sounds recorded from front, right, left and back are played back on a 5.1-channel home theatre system, viewers are surrounded by clear, detailed sound. The Zoom Microphone lets users zoom the sound only to hear the subject while continuing to record a wide-angle shot.
- Wind noise canceller automatically detects and suppresses wind noise only, to ensure only the natural sounds remain.
- Auto Power LCD automatically adjusts the brightness of the LCD screen according to the shooting environment. In dark places, the screen brightness is reduced to 1/3 the normal level to minimize the possibility of disturbing nearby people. In bright outdoor places, the screen brightness is increased to twice the normal level.
- Capture brilliant still images up to 14.2MP in size when shooting in the 3:2 aspect ratio. When shooting in 16:9, otherwise known as wide angle, they are capable of taking up to 13.3MP photos. And in 4:3, the standard imaging size, they can capture up to 12.2MP photos.

SONY

DCR-DVD650
DVD Handycam Camcorders

Record directly to DVD and enjoy it on your TV. Shooting high quality video is easy with the DCR-DVD650. It features 60x Carl Zeiss Vario-Tessar optical lens, 2000x digital zoom lens, SteadyShot image stabilization, built-in zoom mic, color viewfinder and 2.7" wide touch panel LCD display. With hybrid recording technology, you record to DVD or removable Memory Stick Duo or PRO Duo media.

- Compatible with DVD-R/-RW/+RW and +R DL (Dual Layer)
- Various dubbing functions let you easily copy video from Memory Stick or built-in flash memory to DVD without using a PC.
- Film Roll and Face Index technology help you quickly find the video scenes you want.
- USB 2.0 for fast transfer of video and images to PC for editing.
- 5X zoom in playback or in the playback pause mode.
- Bundled Picture Motion Browser software lets you easily view, organize, and one-click upload images to video and photo sharing Web sites. In addition, multiple output options let you burn your memories to DVD, AVCHD and Blu-ray Disc media.

DCR-DVD650 *(B&H# SODCRDVD650)*..... **299.99**

MHS-PM5 Webbie HD Camera

The stylish MHS-PM5 can record 1920 x 1080 HD video and capture 5MP stills, making ideal for those looking to make quick video clips and get them up on the web with ease. Other resolution choices, such as 1280 x 720p, and standard definition 640 x 480, are selectable as well. The camera features a 270° rotating lens which is great for self-recording and getting a unique perspective. And, when rotated, the lens automatically turns the camera on. Last, it offer advanced features not typically seen on pocket camcorders like Face Detection and SteadyShot image stabilization.

- 4x digital zoom and individual "Movie" and "Still" buttons.
- Built-in USB arm lets you connect the camera directly to a Mac or PC to upload video and/or charge the battery without having to look for cables.
- Face Detection technology recognizes faces and optimizes camera settings for both video and still images, so faces are captured more clearly and skin tones look more natural
- Accept Memory Stick Duo, PRO Duo and PRO-HG Duo media as well as SD/SDHC memory cards.
- Can be mounted on an optional tripod for added stability when capturing video or still images.
- With the pre-installed Picture Motion Browser (PMB) Portable software, the MHS-PM5 makes it easy to pre-select videos and images and conveniently upload them to popular Internet sharing sites without the need for any additional software.
- Enjoy the convenience of individual "Movie" and "Still" buttons that allow you to seamlessly switch from video recording to still photo capture with the simple press of a button
- Measures just 0.75 x 4.25 x 2.13" and weighs 4.5 oz.

SONY

DCR-SX44 • DCR-SX63 • DCR-SX83
Standard Definition Flash Memory Camcorders

These ultra-compact standard definition flash memory camcorders offer up to 16GB embedded memory for almost 4 hours of recording in HQ mode or 11 hours in LP mode. They feature 60x optical / 300x digital zoom, 2.7" Clear Photo LCD and digital camera functions. They can also record video and still images directly to removable Memory Stick PRO Duo media as well as SD/SDHC memory cards. Various dubbing functions let you easily copy video or still images from memory to the Memory Stick PRO Duo media without using a PC.

For added convenience, they work with Sony's VRD-P1 DVDirect Express DVD writer, offering a quick and easy way to transfer videos directly to DVD for playback on most home players— without a computer. You can use the VRD-P1 anywhere as it is powered by the camcorder. Or you can easily burn a DVD copy of your footage using the supplied Picture Motion Browser software. Simply connect the camcorder to a compatible PC via a USB cable and press the One Touch Disc Burn Button.

Otherwise the same, the DCR-SX83 steps up with iAuto function to eliminate the guesswork from selecting optimal camcorder settings for different environments. It detects the camcorder's surroundings and continually optimizing settings in real-time for up to 90 unique scenes. It also incorporates a back-illuminated "Exmor R" CMOS sensor which offers higher sensitivity and reduced image noise to provide stunning low light performance in twilight or candlelit scenes.

DCR-SR68 • DCR-SR88 Standard Definition Hard Disk Drive Camcorders

Almost identical to the DCR-SX44 or DCR-SX63 (above) except the DCR-SR68 and CDR-SR88 trade in built-in flash memory for built-in hard disk drive (HDD) that offers extended, hassle-free recording. With their built-in 80GB or 120GB hard disk drive your can record and store up to 60 or 90 hours of video footage in SD LP mode. In addition, "HDD Smart Protection" gives you peace of mind by preventing any recorded video and images from being lost if the camcorder is accidentally dropped. They also offer hybrid Recording to HDD or Memory Stick Duo media. Hybrid recording delivers a level of flexibility for capturing and transferring your video footage and digital photos from the camcorder to compatible viewing devices. Record to the hard disk drive or choose instead to record to removable Memory Stick PRO Duo media. You can even select from various dubbing functions to easily copy video or still images from the HDD to the Memory Stick - without using a PC.

All Flash "Memory Stick" and Hard Disk Drive Camcorders Feature:

- They power on simply by opening the LCD display and offer an Easy Handycam button, letting you focus only on the buttons needed for recording.
- The display rotates up to 270° for multiple viewing angles, as well as provides sharp, detailed images for monitoring or playback. The convenient touch panel allows easy access to menus and additional functionality such as spot focus and spot metering.
- LED video light for capturing video in low-light situations
- USB 2.0 interface for fast transfer of video and still images to PC for editing.
- Dolby Digital stereo recording with built-in zoom mic focuses on subject for clear dialogue and crisp, discrete sounds
- Film Roll and Face Index technology help you find the video scenes you want by previewing the beginning of scenes and create scene indexes set at specified display intervals (3, 6, or 12 seconds and 1 or 5 minutes) or by choosing from the faces displayed in the index.
- Bundled Picture Motion Browser software lets you easily view, organize, and one-click upload images to video and photo sharing Web sites. In addition, multiple output options let you burn your memories to DVD, AVCHD and Blu-ray Disc media.

HDR-HC9 HDV Camcorder

Get the quality of HD with MiniDV and capture stills to Memory Stick PRO Duo and Memory Stick Duo for fast transfer to PC for emailing or printing. The HC9 features a Carl Zeiss Vario-Sonnar 10x optical zoom and a 3.2-megapixel CMOS sensor, Super SteadyShot image stabilization, and rotatable 2.7" touch panel Clear Photo LCD Plus display that offers user-friendly menus and wide-screen viewing. HDMI output allows connection to an HDTV via a single cable. *(# SOHDRHC9)*.....**1099.99**

GPS Image Tracker

Map your memories with the ingenious GPS-CS3KA GPS image tracker, compatible with most Cyber-shot digital still cameras and Handycam camcorders. Record the time, date and location to each shot you take and enjoy them with the included Picture Motion Browser software. Once the images and data are on your PC, the supplied image tracker software synchronizes the photos with latitude, longitude and time reading from the GPS-CS3KA unit. Activate the Picture Motion Browser software and your photos will pop up next to pushpins on Google® maps by the actual location where you shot the picture. *(GPS-CS3KA)*.....**109.95**

SONY

HDR-AX2000
AVCHD Camcorder

The HDR-AX2000 incorporates AVCHD technology, three Sony Exmor CMOS sensors with ClearVid array, and state-of-the-art 20x G Lens, to deliver full high- definition resolution and low light sensitivity with low noise. The camcorder will record AVCHD up to 24Mbps, delivering 1920 x 1080 HD images with both interlace and progressive modes along with native 1080/24p, 720/60p and MPEG-2 standard definition recording.

- AVCHD recording format utilizes the MPEG-4, AVC/H.264 video codec, allowing users to record HD video footage onto random access media. Its intelligent and sophisticated algorithm makes AVCHD a highly efficient compression format ideal for memory recording and IT-based editing. (SD format recording is available in addition to HD format recording).
- Three 1/3" Exmor™ CMOS Sensors improve the color reproduction of video recordings and capture sharp, detailed images even in low-light environments with sensitivity of 1.5 lux.
- 20x zoom "G Lens" zoom provides a 29.5-590mm focal length (35mm equivalent). Two ED glass elements reduce chromatic aberrations. Also includes a compound aspheric lens for images that are crisp and clear, even when shooting at full zoom.
- Active SteadyShot offers additional stabilization by increasing the optical lens coverage area and by improving detection with state-of-the-art compensation.
- 3.2" (16:9) Xtra Fine LCD with 921,000 pixels and 0.45" Xtra Fine electronic viewfinder with 1,227,000 pixels for high-resolution, high-contrast images with remarkable color reproduction.
- The LCD and viewfinder feature a Center Marker that lets users identify the center of the screen at a glance. Users can also display a Guide-frame grid on the screen that simplifies the vertical and horizontal alignment of shots.
- Has three built-in neutral density filters, plus manual settings for iris, gain, white balance, shutter speed and focus for increased creativity and control.
- Manual zoom, focus and iris for even more flexibility. Offers the same operability as interchangeable lenses.
- Equipped with two memory slots for recording to Memory Stick PRO Duo media and SD/SDHC cards, with the HDR-AX2000 automatically cycling between the two of them. Using two 32GB memory cards, six hours of continuous HD footage can be recorded.
- Assign frequently used functions to shortcut buttons.
- Has a record start/stop button on the handle as well as on the side grip. The zoom lever enables easy zooming even when shooting from a low angle.
- Provides four types of Color Bars for color adjustment
- Users seeking extra control can use Cinematone Gamma to deepen the color and Cinematone Color to recreate film-like color tones. Cinematone Gamma allows operators to quickly set up and load a gamma curve with similar contrast characteristics to a film gamma curve.
- Has dual XLR ports allowing direct input of balanced, pro-level microphones without the need for an XLR-to-mini adapter. Component, HDMI, and S-Video outputs are also available, allowing for direct connection with analog and digital displays.
- Capture still images directly onto one of two selectable Memory Stick PRO Duo media or SD/SDHC media slots for easy transfer to PCs for emailing, printing, or sharing with other compatible Memory Stick devices.

SONY

HDR-CX110 • HDR-CX150 • HDR-XR150
High Definition Flash Memory and Hard Disk Camcorders

Offering full 1920 x 1080 HD video recording at up to 24Mbps, the HDR-CX110 and HDR-CX150 feature 25x optical zoom and Sony "Exmor R" CMOS sensor which offers higher sensitivity and reduced image noise to provide stunning low light performance in twilight or candlelit scenes. They also feature, iAuto, Face Touch, Highlight Playback, 60p output and 3MP still photos. Otherwise the same, the HDR-CX110 records to optional Memory Stick media or SD/SDHC memory cards, the HDR-CX150 adds 16GB of internal memory.

- Select a person to be prioritized (for focus, color, exposure and Smile Shutter technology) just by touching a detected face on the screen and the camcorder will remember them – even if they leave the scene – for the entire recording session. Smile Shutter technology, captures candid smiling photos simultaneously while video is being recorded.
- iAuto eliminates the guesswork from selecting optimal camcorder settings for different environments by detecting the camcorder's surroundings and continually optimizing settings in real-time for up to 90 unique scenes.
- Optical Steady Shot™ image stabilization with Active Mode reduces the effects of hand shake in three directions – vertical and horizontal shake corrected by optical image stabilization and the third, by way of electronic image stabilization, corrects lateral-roll shake. This advanced stabilization system results in dramatically smoother video footage.
- User friendly interface uses touch screen technology so users can scroll through menus quickly and even create a personalized "My Menu" to bring together the functions they use most.
- They automatically up-convert content to 60p (60 progressive frames per second) when connected via HDMI cable to a compatible high-definition television.
- Smooth Slow Record mode increases the record rate from 60 frames per second (fps) to 240 fps, allowing you to capture 3 seconds of fast motion and play the video back in 12 seconds. This is a great tool for analyzing a golf swing or a viewing a bird in flight. In addition, you can record an audio track to narrate the video footage
- With Highlight Playback, they automatically create short movies by identifying and compiling key scenes into a short, entertaining movie complete with music and transitions. In addition, the Highlight Scenario feature lets you save up to eight of these movies for later playback.
- Store your memories in a whole new way with the ability to copy videos from your camcorder directly to an external hard drive without a computer. Your camcorder can also access videos stored on the external hard drive for playback on your HDTV, allowing you to utilize the camcorder's handy playback features

Stepping up, the HDR-CX550V and HDR-XR550V feature a 3.5""Wide Xtra Fine TruBlack LCD display which delivers more natural, realistic colors and easier viewing in bright conditions by reducing glare. In addition, an adjustable 0.27" color viewfinder (201k) allows you to capture video and frame your shots with the LCD closed. They have an assignable dial for manual control of focus, iris, shutter, exposure and white balanc. They also offer external microphone and headphone connections, along with the Active Interface Shoe, which allow you to add optional accessories.

HDR-CX550V: 64GB Internal Memory in Black *SOHDRCX550V)* **1199.99**
HDR-XR550V: 240GB Hard Disk Drive in Black *(SOHDRXR550V)* **1399.99**

SONY

HDR-FX7 3CMOS 1080i HDV Camcorder

Shoot like a pro with the HDR-FX7. Capture and playback amazing video and still images in both 1080i HDV and standard definition on standard miniDV tapes. Recorded HDV video can be conveniently edited with a choice of available HDV, non-linear editing software. Its HDMI interface offers simple, one-cord connection to compatible display devices. ClearVID 3CMOS sensor combined with Sony's Enhanced Imaging Processor results in higher video resolution, greater light sensitivity with minimal picture noise, and more accurate color reproduction

- The HDR-FX7 has a smooth slow record function. With its three sensors, it can capture a six-second burst of video and play it back in 24 seconds as slow motion video.
- Has a high-resolution, 3.5" SwivelScreen LCD screen with Clear Photo Plus LCD for superb contrast and accurate color reproduction. Also sports a high-resolution viewfinder to accurately check composition, focus and image color.
- Has a Carl Zeiss Vario-Sonnar T* lens with a 20x optical zoom plus a 1.5x digital extender realizing a 30x optical zoom without significant degradation of picture quality.
- Super SteadyShot optical image stabilization reduces shaky footage, even when shooting handheld at high zoom settings.
- Provides extensive manual controls for zoom, focus, shutter speed, white balance, iris, and gain. Independent manual zoom and focus rings provide a high degree of manual control.
- Picture Profile allows the user to set manual adjustments for a scene (color, sharpness, white balance, etc) into any one of six presets, so they can be called up at just the touch of a button.
- Dual record function allows 1.2-megapixel still images and video recorded simultaneously, with the press of a button.
- For more control while focusing the camera for greater detail and clarity, the LCD can temporarily be magnified up to 4x its original size without any loss of distortion.
- Settings for focus, zoom, iris, gain, shutter, and white balance can be set to the Assignable Buttons which will create a smooth transition and will take place according to the set time and transition. This function enables the focus to gradually shift from the front of the screen to a deeper part of the screen. Thus the iris enables a smooth change of depth of field.
- By increasing the record rate from 60 fields per second (fps) to 240 fps for 6 seconds allowing you to capture fast motion and which will play the video back in 24 seconds. This is great for analyzing a golf swing or a viewing a bird in flight.
- Capture still images up to 1440 x 810 (16:9 Mode) resolution, directly onto Memory Stick Duo Media for easy transfer to PCs
- Battery information can be displayed on the LCD screen when charging and when the camcorder is turned off. The display will show how much the battery is charged, in 10% increments and the approximate recordable time left when using the LCD screen or in the viewfinder.

HDR-FX7 *(B&H # SOHDRFX7)*.....**1999.00**

Sony HDR-FX1000

3CMOS 1080p HDV Camcorder

Ideal for amateur videographer shooting weddings or the aspiring cinematographer, the HDR-FX1000 offers advanced cinematic features, including 24P scanning and advanced color settings. It captures full HD 1920 x 1080 resolution using three Sony's ClearVid™ 1/3" CMOS sensor chips which provide high sensitivity, deep resolution, high-speed reading, low noise and a wider dynamic range. It also allows the camcorderto perform significantly better in low-light environments with sensitivity of 1.5 lux.

- 3.2" XtraFine LCD™ (921,000 pixels) and XtraFine 0.45" electronic viewfinder (1,227,000 pixels) for high-resolution and high-contrast images with remarkable color reproduction.
- Peaking focus assist provides a simple way to ensure images are in perfect tack-sharp clarity. The process highlights high-contrast areas that represent sharp lines making focus operation incredibly quick and easy.
- Progressive scan at 1080/24p and 30p gives video productions a film-like look. Using a 2-3 pull down, the 24P scanned image is converted to 60i for easy editing with existing software.
- Three built-in neural density filters provide exceptional light control even in extremely bright environments.
- 30% extension in dynamic range translates into more detail in both highlights and shadows. Increase dynamic range can be very useful when color correcting during post production.
- Incorporates CinemaTone technology, which comes in two flavors. CinemaTone Gamma™ crushes blacks while keeping the mids and highlights detailed, while CinemaTone Color™ deepens color reproduction for richer hues. Combine the two and footage becomes incredibly film-like.
- Equipped with a Sony G lens with a 29.5mm wide-end viewing angle, extra-low dispersion glass and 20x optical zoom. The lens also has a digital extender that increases magnification by 1.5x, making the lens achieve up to 30x digital zoom levels.
- Manual settings for iris, gain, white balance, shutter speed and focus for increased creativity and control. Use of any of the three manual rings for adjustments to zoom, focus and iris provides even more flexibility.
- When shooting in extremely bright-lit areas, the gain control can be knocked even down to reduce noise even further.
- Histogram gives users a visual/numerical reference for making sure the camera is properly color corrected.
- Zebra feature highlights over-exposed areas of the frame
- Color bar button provides reference for quick calibration on location or in the studio.
- x.v. Color technology built into the HDR-FX1000 means the cameras sees nearly twice as many colors than conventional prosumer-level cameras. The camera provides colors that are more accurate and vivid in gamut.
- HDMI output for connection a widescreen HDTV

HDR-TG5V

Ultra-Portable HD 1080i Camcorder

The HDR-TG5V delivers full HD 1920 x 1080 resolution video recording and 4-megapixel still image capture in an ultra-portable design, perfect for travel and everyday recording. The stylish HDR-TG5V features a pure titanium body that makes the camcorder remarkably strong, lightweight, and resistant to scuffs and scratches. It includes a built-in GPS receiver that records the latitude and longitude where videos and photos are shot, automatically adjusts the clock to the proper time zone and displays your current location on the LCD with NAVTEQ map index display. The HDR-TG5V comes with 16GB of embedded flash memory that can record up to two hours of high definition video at the highest quality settings, as well as a number of convenient Sony innovations, including Face Detection with Smile Shutter™ technology and Highlight Playback.

- Features a 10x Carl Zeiss Vario-Tessar zoom lens designed for compact camcorders. Precision ground optics help maintain the sharpness and contrast of larger lenses, and SteadyShot image stabilization reduces blur caused by camera shake.
- 2.7" wide (16:9) touch panel Clear Photo LCD Plus™ display provides excellent viewing clarity with improved resolution.
- 4-megapixel still image capture lets you take high resolution digital photos, and for added clarity and detail in low-light situations, the built-in flash reduces shadows and improves pictures.
- Made possible by the BIONZ™ image processing engine, Face Detection technology recognizes up to 8 faces anywhere in the frame and automatically controls focus, exposure, and color to help capture smiling faces brightly and clearly.
- In Smile Shutter the camcorder automatically take still photos when your subject smiles, even while shooting HD video.
- The Highlight Playback feature lets the HDR-TG5V automatically create a short movie - including transitions and music - by using several criteria to identify and compile key scenes.
- Dolby Digital 2 channel stereo recording captures active sounds coming from left and right, while the built-in zoom mic focuses on your subjects in sync with the camera's zoom lens.
- Record video directly to either the 16GB memory or removable Memory Stick PRO Duo media
- Smooth Slow Record lets you slow down fast motion by increasing the record rate from 60 fps) to 240 fps
- x.v.Color™ technology can capture or display nearly twice as many (1.8x) viewable colors as the standard RGB color range.
- HDMI and USB 2.0 output for connection a widescreen HDTV or PC for fast transfer of video and still images for editing.
- Map Index uses your geotagged videos and photos to view your shot locations on NAVTEQ® maps in the camcorder, offering a new way to easily search and find a desired scene by location or view where a scene was captured.
- Film Roll Index creates scene indexes at specified display intervals, making it easier to find and playback the desired moment.
- Face Index uses Face Detection technology to organize your video footage based on the faces detected in each scene.
- Bundled Picture Motion Browser software makes it easy to transfer, sort, and view your video and still images. Multiple output options let you burn to DVD, AVCHD, and Blu-ray Disc™ media, making it simple to upload to video & photo sharing sites.

HDR-TG5V *(B&H # SOHDRTG5V)*..... **999.95**

PAL Camcorders Explained: In the U.S., the TV color system is known as NTSC, which uses 525 scan lines at 30 frames per second. But there are two other television standards, called PAL and SECAM, used in the rest of the world. Unlike NTSC, PAL uses 625 scan lines at 25 frames per second. So, while camcorders can record video anywhere in the world, it's where that video is played back that makes a difference. PAL camcorders are designed to play back in countries that support the PAL color system—such as Europe, China, the Middle East, and South Africa. This means that these camcorders—with their different signals and frame rates—*do not* play back on American televisions. There are no multi-standard camcorders; they are either NTSC or PAL. Variations to these standards also exist, such as PAL-B, PAL-I (United Kingdom), SECAM-D (China), and SECAM-L (France).

VIXIA HV40E
Canon
HDV MiniDV Camcorder

- Full HD CMOS sensor and DIGIC DV III processing.
- 2.96 MP CMOS sensor
- 10X HD optical zoom • 2.7" LCD screen
- 24p cinema mode/30p progressive

#CAHV40E **$999.95**

HVR-A1E
SONY
HDV DVCAM Camcorder

- 1/3" 3 MP CMOS sensor • Carl Zeiss 10X optical zoom
- 2.7" LCD screen • 16:9 color/B&W viewfinder
- 30F/24F cine modes • Dual XLR input w/phantom power
- Histogram, color bars, peaking • Manual focus ring

#SOHVRA1P **$2,649.95**

XL-H1SP
Canon
3-CCD High Definition Camcorder

- Interchangeable lenses, plus includes 20x HD video zoom
- Extensive cine' controls and 25 frame option.
- HD-SDI and SD-SDI output editing systems.
- Genlock and real SMPTE time code input and output.

#CAXLH1SP **$9,499.00**

LEGRIA HF S10E
Canon
Dual Flash Memory High Definition 'PAL' Camcorder

- 32GB Internal Flash Memory • SDHC Memory Card Slot
- 8.59Mp 1/2.6" CMOS Canon • 10x HD Video Lens • HDMI Mini
- 2.7" Multi-Angle Widescreen LCD • 8MP Still Images
- 1920 x 1080 HD SuperRange O.I.S. • Mini Accessory Shoe

#CAHFS10E **$1,339.95**

VIXIA HF-10E
Canon
16GB Dual Flash Memory/SDHC Memory 'PAL' Camcorder

- 3.3Mp 1/3.2" Full HD CMOS Sensor • 12x HD Video Zoom Lens
- 12x Optical Zoom • SuperRange Optical Image Stabilizer
- Mini HDMI Connection • 24p Recording • Microphone Input
- SD/SDHC Flash Memory Slot • 16GB Internal Flash Memory

#CAHF10E **$829.95**

LEGRA HF200
Canon
High Definition PAL Camcorder

- HD Recording to SDHC Memory Card • 3.89Mp 1/4" CMOS
- Canon 15x HD Video Lens • 15x Optical Zoom • 2.7" LCD
- SuperRange O.I.S. • 1920 X 1080 HD • HDMI Mini
- Mini Advanced Accessory Shoe

#CAHF200E **$799.95**

HDR-CX100
SONY
High Definition Handycam 'PAL' Camcorder

- 1920 x 1080 HD • Memory Stick PRO Duo Media Slot
- 4Mp 1/5" Exmor CMOS • 10x Zeiss Optical Zoom Lens
- SteadyShot Image Stabilization • 2.7" Wide LCD

#SOHDRCX100SE **$599.95**

DSR-PD170P
SONY
3-CCD Pro DVCAM Camcorder

- 3 1/3" advanced HAD CCD's • DVCAM or DV format
- 12X optical zoom • Dual XLR audio w/phantom power
- Excellent low-light performance • 2.5" hybrid LCD
- 500-line B&W viewfinder • Timecode, zebra stripes

#SODSRPD170P **$3,499.95**

XL-2E
Canon
3-CCD Pro MiniDV Camcorder

- 3 1/3" progressive image CCD's (680K pixels each)
- 16:9 (native) / 4:3 shooting formats • 24P, 30P, 60i frame rates
- Detachable 20X optical zoom lens (F/1.6–3.5)—minimum 5.5 lux
- Adjustable Gamma and Color Matrix • Cine Mode

#CAXL2E **$3,795.00**

AG-HMC70U
Panasonic
3-CCD Shoulder-Mount HD Camcorder

- 3 1/4" progressive CCD's (1440 x 1080 resolution)
- Leica Dicomar wide-angle 12X zoom lens
- Records to SD/SDHC memory cards (6Mbps, 9Mbps, 13Mbps)
- 3" 16:9 LCD monitor • 2 XLR mic inputs +48V phantom power

#PAAGHMC70P **$2,599.95**

HVR-HD1000P
SONY
Pro HDV Shoulder-Mount Camcorder

The HVR-HD1000P is an affordable shoulder-mount camcorder in a pro package. Its 1/2.9" ClearVid CMOS sensor records both 1080i HD and standard DV video on a miniDV tape. It features a 10x Carl Zeiss lens, Super Steadyshot, and smooth slow recording.

#SOHVRHD1000P **$1,899.95**

HVR-V1P
SONY
3-CMOS Pro HDV Camcorder

- 3 1/4" CMOS sensor • HDV/DVCAM/DV formats
- Carl Zeiss 20X zoom • 1080i/1080p, 50i/25p
- 3.5" LCD screen • Color/B&W viewfinder
- Dual XLR input • 6 user assignable buttons

#SOHVRV1P **$4,499.95**

HDR-FX1000E PAL
SONY
3-CMOS Handycam HDV Camcorder

- 3CMOS ClearVid Exmor Sensors • 1080p • 25p
- 20x • G-Lens • Dual Record with 1.2MP Still Capture
- HDV/DV Switchable

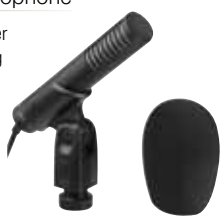
#SOHDRFX1000E **$3,499.95**

AG-HVX200E
Panasonic
3-CCD Pro DVCPRO HD Camcorder

- 3 1/3" progressive CCD's • 1080i/720p HD video
- Records to P2 media (@100Mbps) • Cine/News gammas
- 13X Leica lens • DVCPRO HD, DVCPRO50/25, MiniDv formats
- Variable 12–60fps • Intraframe compression

#PAAGHVX200AP **$4,995.95**

PRO-24CM
audio-technica
Stereo Camcorder Microphone



This lightweight stereo condenser microphone is ideal for capturing high-fidelity audiodirectly into your camcorder.
- Mounts easily on camera shoe
- Attached 1/8" mini cable
- Rugged all-metal construction
- Battery or "plug-in" power

#AUPRO24CM **$79.95**

PortaMic 5.1
HOLOPHONE
Camera-Mounted 5.1 Surround Microphone

Offers a simple, yet professional means of capturing 5.1 surround sound. Six individual mic capsules and built-in Dolby ProLogic II encoder automatically encodes discrete audio for stereo output using the included cables. Operates on a 9V battery and features an elliptical shape that mimics the acoustic properties of human hearing.

#HOPM51 ..... 598.95

MINI WINDJAMMERS
Rycote

Designed to be positioned over the foam windscreen of a handheld, stereo, or consumer camcorder microphone.

#RYMWS60 Mini Windjammer for Sony VX-2000/2100 ... **$48.00**
#RYMWS130 Mini Windjammer for Sony PD-150/PD-170 .**$51.00**
#RYMWS155 Mini Windjammer for Canon XL1/2..... **$51.00**

SMX-10
AZDEN
Directional Stereo Camera Mic

- Shoe-mount stereo camcorder microphone
- Compact design
- Operates on a single AAA battery
- Low frequency roll-off
- Attached stereo mini output cable
- Includes windscreen

#AZSMX10 SMX-10 Directional Stereo Video Mic..... **$99.95**

SVM
RØDE MICROPHONES
Stereo Video Microphone

The SVM is an on-camera stereo microphone with an X/Y configuration and the same low-noise circuit design as the Rode VideoMic. It features 9V battery operation, an LED battery status indicator, a high pass filter switch, and a -10dB pad switch

- Stereo X/Y condenser microphone
- Integral camera-shoe mount and windshield
- Rugged cast aluminum body
- 9V battery operation

#ROSVM Stereo Video Mic..... **$249.00**

Beachtek DXA-5DA
BeachTek
Passive DSLR Adapter

The DXA-5DA provides professional audio results when capturing video with a DSLR camera. Connect the DXA-5DA to the mic input of the camera and connect two mono microphones, or a single stereo mic. Features two XLR connections and controls for volume and mic/line level operation.

#BEDXA5DA.....329.00

SGM-X
Camera Mounted Shotgun Mic
AZDEN

Designed specifically for use with mini DV cameras, the Azden SGM-X is a supercardioid shotgun mic with a wide frequency response, an 1/8" mini plug output and camera shoe mount.

#AZSGMX **$109.95**

WMS-PRO
AZDEN
VHF Wireless Lav/Hh Mic System

Reliable portable wireless units that are available as lavalier or handheld systems.
- Camera mountable receiver
- Headphone output
- 2 switchable frequencies

#AZWMSPRO lavalier/handheld system **$149.95**
#AZWLXPRO lavalier system..... **$134.95**
#AZWHXPRO handheld system..... **$159.95**

DXA-SLR
BeachTek
Active DSLR Adapter

The DXA-SLR has built-in low-noise premaps that provide 15dB of gain for clean, clear audio, and phantom power for connecting professional audio gear to any DSLR camera that has a mic jack. Good/Peak signal indicators show the ideal input levels, while AGC Disable controls the wild swings of AGC that plague most cameras. Fits neatly under any camera and can also be mounted to a tripod. Runs on 9v battery

MKE400
SENNHEISER
Small Shotgun Mic

Rugged and lightweight metal housing for on-camera mounting.
- Selectable wind filter
- Switchable sensitivity for long and short distances
- Integral shock-mount

#SEMKE400 Ultra Compact Shotgun Mic W/Shockmount **$199.00**
#SEMZW400 MZW400 Wind-muff and XLR Adapter Kit for the MKE400 ..... **$48.95**

UM SERIES
SAMSON
UHF Diversity Wireless System

The Samson Micro Diversity wireless system provides solid, single-channel UHF performance.
- Compact and lightweight components
- Balanced XLR and 1/8" mini output
- Headphone output with level control

#SAU77LLM5N* with LM5 Omni Lavalier Mic **199.00**
#SAU77LLM10N* with LM10 Lavalier Mic..... **219.00**
#SAU77HHN* with HT7/Q7 Handheld Mic **199.00**

DXA
BeachTek
XLR Audio Adapters

The DXA family of adapters are designed to give XLR connectivity to cameras that only support 1/8" miniplug inputs.
- 2 balanced XLR inputs
- 1 auxiliary mini-jack input
- Dual Mic/Line level switches
- Durable metal chassis

DXA-4 for Sony VX2100, FX1/FX7 *(#BEDXA4)*..... **179.95**
DXA-4P for Canon GL-1/GL-2 *(#BEDXA4P)*..... **179.95**
DXA-2T Compact Dual XLR Adapter *(#BEDXA2T)*..... **189.00**
DXA-6A Audio Adapter *(#BEDXA6A)*..... **279.95**

VIDEOMIC
RØDE MICROPHONES
Directional Condenser Mic

Shoe-mountable shotgun microphone specially designed for use with digital video cameras with stereo mini-jack inputs.
- Integrated shock mount
- Switchable high-pass filter
- 9V battery powered
- Ultra-lightweight
- Low Battery LED

#ROVM Videomic -Directional Condenser Mic **$149.00**
#RODC Dead Cat Wind Muff **$39.00**

PRO 88W
Camera Mountable VHF Lavalier Systems
audio-technica

Includes:
Body-Pack Transmitter, Camera Mountable Receiver, AT830mW Omnidirectional Lav Mic, and Camera Shoe Mount

- 2 User Selectable VHF Frequencies
- Durable Metal Construction Camera Shoe Mountable

#AUP88W830* with MT830R omni mic **$169.95**
#AUP88W829* with AT829 cardioid mic..... **$169.95**

CX211 • CX231
JUICEDLINK
XLR Audio Adapters

Provide two balanced XLR connections for 1/8" mini equipped camcorder. High, Mid and Low gain settings with attenuator dial. Mount to the bottom of camcorders and tripod tops. Otherwise the same, the CX231 features 12v and 48V phantom power.

CX211 *(# JUCX211)* .....**189.00** CX231 *(# JUCX211)*.....**299.00**

impact™

VIDEO CONVERSION LENSES

Impact's high-quality convertible lenses are manufactured with premium workmanship, resulting in superior, high-resolution image capture. These conversion lenses are available in several categories: telephoto, wide-angle, macro/close-up, and fisheye. They mount directly onto digital and video camcorders. Impact lenses with a magnetic base will magnetically mount directly to your digital camera or camcorder.
